

SERVICE PROVIDER

My organization provides programs, activities, events, enrichment opportunities, or childcare for school-aged children in Manchester.

What is the OOST Network?

The OOST Network is an online, searchable directory of Out-of-School-Time opportunities available to school-aged children and youth in Manchester. It is accessible by computer, phone, or mobile device.

Is the OOST Network for my organization?

Are all the following statements true for your organization?

- I represent a for-profit business, a nonprofit organization, a faith-based institution, a government agency, or other legal entity.
- My organization offers programs, activities, events, lessons, enrichment opportunities, or childcare for school-aged children in Manchester.
- At least some of these offerings take place during the hours of the day, days of the week, weeks of the month, or months of the year that school is not in session.

If the answer is yes, then: Congratulations! You are an Out-of-School-Time Provider, and you are eligible to join the OOST Network.

Why join the OOST Network?

When your organization joins the OOST Network, you become part of a robust network of Out-of-School-Time providers. The OOST Network is the only centralized database of Out-of-School-Time opportunities and the easiest, most cost effective way to promote your programming directly to local families. Simply post your program details, and let local families find you as they search and sort by program schedule, participant age/grade level, area of interest, and more. The OOST Network is 100% free to both service providers and users. Your organization can't afford not to join!

How can my organization join the OOST Network?

It's easy. Just register online at www.OOSTnet.com. Once your organization is approved by a town-appointed administrator, you can start posting Out-of-School Time opportunities. It's that simple!

Visit Manchester's OOST Network online at www.OOSTnet.com. OOST is a web-based SAAS product created by Sentirene. Sentirene is a local technology company located at Axis901—Manchester's Coworking Space. Manchester's OOST Network is an online community service provided through the Town of Manchester and Manchester Public Schools.
